

Change of the color of the Blade Holder

PHP35 series

Thank you very much for your continuous support and promotion for Graphtec products.
Hereby we would like to inform that the color of the blade holder PHP35 series will be changed.
In this change, the color of the blade holder will be changed and the reflective seal will be added to the holder. However, there is no change in the shape, function and performance. And the product name, price will be same.

Contents of the change

- Change of the color : change the cream color to the black color
- Additional reflection seal (silver) : It does not affect the performance or function of the holder.
- The product name, price, shape, function, performance will not be changed.

Item	Description	Current model	New model
